

**Please take a few minutes to help us improve future workshops on Data Management  
(survey also available at [www.esipfed.org/resources](http://www.esipfed.org/resources))**

Questions about you

1. Which category best describes you? (select 1)  
 scientist/researcher  
 student  
 data analyst  
 other \_\_\_\_\_
  
2. Have you created a data management plan before? (select 1)  
 I have created three or more  
 I have created one to three  
 I have never created a data management plan for a project  
 I have never created a plan and need to create one in the next 12 months
  
3. How have you shared your data in the past? (select all that apply)  
 shared data with colleagues upon request  
 contributed one data set to a long term archive  
 contributed more than one data set to a long term archive  
 updated or revised data previously contributed to a long term archive  
 other \_\_\_\_\_

Questions about the workshop

4. How useful was this workshop to you? (select 1)  
 not useful at all  
 somewhat useful, but I still need significantly more information/guidance  
 useful, but I still need more information/guidance  
 mostly useful, but I still need a little more information/guidance  
 exactly the information I needed
  
5. Was the material presented appropriate for your needs?  
 too detailed  
 just right  
 not detailed enough

6. Was the format of the presentations effective in conveying the information

yes

no

7. Please share your suggestions for improving the workshop.

Questions about your needs

8. What additional information do you need? (select all that apply)

more detail on data descriptions (metadata)

more detail on data policies and requirements

more detail on appropriate long term archives

(other) \_\_\_\_\_

9. How would you like to receive additional information? (select all that apply)

web site links

pdf documents

listserv

forum (where you can post questions)

online courses

workshops at meetings

email correspondence with archivists

(other) \_\_\_\_\_

10. What is the biggest obstacle to sharing your data with a long term archive? Rank high (1)

to low(4)

Data sharing policies compromise scientists

Data preparation is too time consuming

Documentation preparation is too time consuming

(other) \_\_\_\_\_
